

**Boil Water Notification**  
**Walnut Creek Special Utility District**  
**TX 1840008**

Due to loss of power at the Jaybird lane pump station which caused a loss of pressure in the South East portion of the District, the Texas Commission on Environmental Quality has required Walnut Creek Special Utility District to notify all customers to boil their water prior to consumption.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to consumption. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, Walnut Creek Special Utility District will notify you.

If you have any question regarding this matter you may contact **Roger Crutcher, Field Superintendent at 817-694-9317.**
